## DETAILED ACTION

### *Claim Objections*

1. Claims 25-26 are objected to because of the following informalities: “beta-aminoacids” should be beta-amino acid and “poly-aminoacids” should be poly-amino acids. Appropriate correction is required.
2. All rejections made in the previous office action are hereby withdrawn and new grounds for rejections follow below.

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claims 25-27 and 33-34 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 25 recites that the parachute structure is bonded to the photosensitizer through a spacer such as beta-amino acids, gamma-amino acids, poly-amino acids, or an amino acid sequence. However, the use of this spacer is unclear in light of claim 24. Claim 24 states that the “branching unit connects said hydrophilic moieties and said therapeutic compound” and the branching unit is a triazine trichloride or a trimesinic acid trichloride. Thus, claim 24 specifies that the photosensitizer is connected with the hydrophilic moieties using a triazine trichloride or a trimesinic acid trichloride. However, claim 25 states that the photosensitizer is connected to the parachute structure through a

spacer. Thus it is unclear from the claims what connects the parachute structure through the therapeutic compound.

In claim 33 and 34, the claims recite "preselected tumor region." However, it is unclear what is defined as the preselected tumor region. It is unclear, for example, the location within the tumor region itself or the location is the entire tumor area. Further, it is unclear what selection criterion are used to render it preselected. For these reasons, the claims are indefinite.

2. Claims 24, 28-32 are allowed.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anish Gupta whose telephone number is (703) 308-4001. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brenda Brumback, can normally be reached on (703) 306-3220. The fax phone number of this group is (703) 308-4242.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-0196.
